

ABSTRACT OF THE DISCLOSURE

At the time of receiving an e-mail, a music melody or the like correlated with a respective e-mail sender is automatically reproduced.

- 5 The system and the method of the invention comprising the steps of:
downloading an e-mail addressed to a respective user from a mail server;
extracting a domain name from a mail address of an e-mail sender
contained in the downloaded e-mail; and reproducing a music file which is
registered in advance as correlated with the domain name extracted,
10 thereby enabling the respective user to recognize who is the sender of the
e-mail while downloading it from the mail server.
